

How much money does Titan solar power have in bankruptcy?

Titan Solar Power, which was founded locally in 2013, filed for Chapter 7 bankruptcy protection June 20. The company estimated it has between \$1 million and \$10 million in assets against \$1 million and \$10 million in liabilities, according to its petition with the U.S. Bankruptcy Court for the District of Arizona.

What if a solar contractor goes bankrupt?

Solar Insure offers a program called Solar Detect, designed to assist homeowners abandoned by a bankrupt solar contractor with long-term maintenance service contracts. Find more pv magazine USA reporting on the series of residential solar bankruptcies and business closures.

What happened to Titan solar?

Titan is not the only solar installer to close up shop lately. The company, which could not be reached for comment for this story--its website has shut down--is one of 16 major solar outfits that have filed for bankruptcy in 2023 and 2024, according to Solar Insure, which offers warranties and monitoring for homeowners who have solar.

Why did Titan go bankrupt?

That day, Titan's employees received an email that said company leadership had tried and failed to find a buyer for the company and bring in new sources of capital and that the company would close effective immediately. A week later, Titan filed for Chapter 7 bankruptcy liquidation in Arizona.

Does Titan solar have assets available to pay creditors?

A statement provided on the Court's web page says, "In most of the cases filed, it appears that there are no assets available to pay creditors." Titan's closure is the latest in a string of high-profile solar company failures, including Pink Energy (formerly Powerhome Solar), ADT Solar, and others.

Is Titan solar closing its doors?

Titan Solar, which installed thousands of systems across the U.S., informed its employees June 13 that it was "closing its doors," having failed to secure a buyer for the company, according to an email obtained by TIME. In the email, Titan said that it had helped over 100,000 households go solar.
