

Who is Titan solar power?

Founded in 2013, Titan Solar Power quickly rose to become a leading provider of solar energy systems by delivering high-quality installations and customer service. They offered a wide range of services, including solar system design, installation, and maintenance for residential and commercial properties.

Does Titan sell solar?

With tens of thousands of residential solar installations across 16 states, Titan established itself as a formidable player in the solar industry, largely through its extensive Solar Dealer program. This approach involved partnering with numerous solar sales organizations that sold solar systems on Titan's behalf.

What happened to Titan solar power?

The solar industry has been a beacon of hope for a sustainable future, but not all companies have been able to withstand the economic pressures. Recently, Titan Solar Power, once a major player in the solar energy market, has declared bankruptcy and is going out of business.

Why did Titan solar power restructure its operations in 2023?

They offered a wide range of services, including solar system design, installation, and maintenance for residential and commercial properties. However, in 2023, due to increased operational costs, labor shortages, and warranty claims, Titan Solar Power announced its decision to restructure its operations.

Does Titan solar power have a third-party solar installer?

Since Titan Solar Power is no longer performing installations, any new solar projects, expansions, or upgrades will need to be handled by a third-party solar installer.
