

What is a USB car charger?

A USB car charger is a device that transforms the cigarette lighter socket in your vehicle into a convenient charging station. These nifty gadgets allow you to power up your smartphones, tablets, and a multitude of other USB-powered devices while you drive.

How can I choose a fast USB car charger?

To choose a fast USB car charger, look for ones that are Qualcomm Quick Charge 3.0 certified, also called Power Delivery (PD). These chargers provide a guaranteed 36 watts to compatible devices and deliver the fastest speed.

What are the smallest USB car chargers?

The two smallest USB car chargers we tested are the Scosche and the Ainope. While they have fairly average charging performance, they are compact and both support at least one smart charging protocol.

How well does USB charging work in a car?

The effectiveness of charging devices in a car depends on the power output of the USB port. Most built-in car USB ports offer lower amperage, typically around 0.5 to 1.5 amps, which can result in slow charging.

How many USB ports do I need in a car charger?

When you're traveling with multiple gadgets, even four USB ports won't be enough to charge everything at the same time. It's easy to find car chargers with one or two USB ports, but for charging multiple devices simultaneously, consider chargers with three or four ports.

Which USB car charger is a budget buy?

The Monoprice 2-Port USB Car Charger is a 'budget buy' that offers ample charging capacity for its price. While Spigen also provides affordable options, Monoprice stands out for its value.
