

What is a solar charger power bank?

Our solar charger power bank is the perfect solution for keeping your devices charged while on-the-go. Equipped with a high-efficiency solar panel, it can harness the power of the sun to charge its own built-in battery. It also has a USB output, allowing you to charge your phone, tablet, or other USB-powered devices.

How many devices can a solar power bank charge?

The USB C port can be used as both input and output, and with two USB A ports, the solar charger can charge up to three devices simultaneously. Fully charge the solar power bank via its high-performance solar panels while traveling away from electricity, or via wall outlet on a daily basis.

How does a solar power bank work?

This power bank ensures your devices stay powered wherever you are. Super-Fast Charging: With upgraded QC 3.0 technology, this solar power bank delivers fast charging at 5V/3A--reaching 65% battery in just 30 minutes. It features one USB-C port and two USB-A ports, enabling simultaneous charging for three devices.

How do you charge a solar power bank?

Most solar power banks have two power options - wall charging and solar charging. To charge a solar power bank, your best bet for a quick-charge is to plug it in and use the sun rays to keep things kicking.

Why should you choose a portable charger solar power bank?

The perfect sustainable and eco-friendly charging solution for outdoor activities, camping trips, and emergency situations. The power bank portable charger is perfect for travelers, commuters. The Portable Charger Solar Power Bank is the perfect solution for those who are always on the go.
