

What is a solar power System V-Guard?

V-Guard's range of Solar Power Systems are the perfect choice for you if you are looking for a safe, powerful and reliable source of energy. Solar Power Systems i.e. setups made up of photovoltaic or PV Modules, an inverter unit and battery, does the job of effectively converting sunlight into electricity. Why go for solar?

Why should you choose V-Guard solar panels?

Choose V-Guard solar panels. V-Guard's solar panels are designed to deliver a very high efficiency of conversion of sunlight into electricity. What's more, they are waterproof and corrosion resistant which are essential features for outdoor solar panels.

What is a V-Guard off-grid solar panel?

V-Guard Off-Grid solar panels generate electricity, store that power in solar batteries, and run independently from the power grid, helping in saving money on electricity bills. What is solar energy?

What is the warranty on V-Guard solar panels?

Harness the best of the sun seamlessly and effectively with V-Guard's MONO CRYSTALLINE PERC MODULE 400W (72 Cells). Ideal for large scale installations. Product warranty: 10 years, performance warranty: 25 years. Investing into solar power for your home or establishment? Make sure you invest right! Choose V-Guard solar panels.

Are V-Guard solar panels waterproof?

V-Guard's solar panels are designed to deliver a very high efficiency of conversion of sunlight into electricity. What's more, they are waterproof and corrosion resistant which are essential features for outdoor solar panels. And they suffer no degradation even under extreme environmental conditions, like salt mists, blowing sand, etc.

Are V-Guard solar panels bad for the environment?

And they suffer no degradation even under extreme environmental conditions, like salt mists, blowing sand, etc. Ideal for large-scale installations, V-Guard solar panels come in a wide range: Polycrystalline cells from 110W to 330W units; and Monoperc cells in 400W units.

This smart water heater can be switched on/off, scheduled, monitored, and operated from anywhere in the world, using V-Guard Smart app. V-Guard smart app: An exclusive app loaded with a host of intelligent features that lets you ...

Power Saver Max: During this mode, the system will cut the grid power based on battery state of charge (SoC) i.e. the level of charge of the battery relative to its capacity and available solar power. Available excess ...

The V-Guard SolSmart 4750 Solar Hybrid inverter is an epitome of innovation and technology and is packed with industry-leading and first-in-class features. Due to technical upgradation of our systems, this service is ...

Find here V-Guard Solar Water Heater, V Guard Solar Water Heater dealers, retailers, stores & distributors. Get latest prices, models & wholesale prices for buying V-Guard Solar Water Heater. ... Dynamic Power Systems. Tambaram ...

V-Guard's range of Solar Power Systems are the perfect choice for you if you are looking for a safe, powerful and reliable source of energy. Solar Power Systems i.e. setups ...

The Evacuated Tube Collector System facilitates high-efficiency absorption and utilisation of solar energy, with minimum heat loss. V-Guard V HOT Pressurized Series Solar Water Heater saves a substantial amount on ...

Looking for a cleaner and greener alternative to generate power to cut down your electricity bills? Well, you are in the right place. Introducing SOLRIGO 100K Three Phase On-Grid PV inverters from V-Guard. When ...

Switch to the Appliance Mode on the V-Guard Smart App and you can use high-intensity appliances such as electric iron, coffee maker, grinder, toaster, hair dryer and more, ...

The SolSmart range of Solar Off-Grid Inverters from V-Guard are suitable for use with solar panels in the 2160-3300Wp range and are a boon to organizations that have switched to solar ...

V-Guard Synergy Smart 1800 Synergy Series of Solar Hybrid UPS is in itself an innovation marvel of the UPS Industry. Due to technical upgradation of our systems, this service is suspended till SUNDAY 10th November 2019, ...

The SolSmart 2750 Solar Hybrid Inverters is designed as an integrated power system that uses hybrid technology to charge up from both grid power and solar power. However, the system's intelligence allows it to switch ...

One stop solution : V guard provides a range of solar power solutions, including solar batteries, solar on-grid inverters, solar off-grid inverters, panels, and solar-based backup ...

V-Guard SOLRIGO 5000 On-Grid PV Inverters are lightweight. Due to technical upgradation of our systems, this service is suspended till SUNDAY 10th November 2019, 12:00AM. ... Mixer Grinders, Fans, Rice Cooker, Gas ...

With humble beginnings in 1977 starting as a small manufacturing unit for voltage stabilizers, V-Guard today is renowned brand in India's electrical and electronics space straddling more than 19 categories spanning ...

Real Time Solar Utilization - A dialer is shown on the V-Guard Smart Mobile App to show Real Time Solar Utilization. This will help the customer to understand whether the Solar Power is used for charging Battery,

running ...

Say goodbye to high electricity bills and hello to unmatched solar efficiency with the 545 Wp Monoperc Half-Cut Solar Panel. Designed for those who demand maximum ...

Looking for a cleaner and greener alternative to generate power to cut down your electricity bills? Well, you are at the right place. Introducing SolSmart 6000T Three Phase On ...

The Evacuated Tube Collector System facilitates high-efficiency absorption and utilisation of solar energy, with minimum heat loss. V-Guard SSAL Commercial Series Solar Water Heater saves a substantial amount on ...

Buy solar water heaters. With the compact looks, low height and light weight models V-Guard Solar water could be the best electricity saver for Home. Due to technical ...

Locate a nearest V-Guard dealers, sellers, distributors and service centers in your locality. A leading brand for quality electrical appliances. Due to technical upgradation of our ...
