

Why is VA installing charging stations at its medical centers?

VA is installing charging stations at its medical centers in preparation for transitioning its fleet to zero-emission vehicles (ZEVs). These sites contribute to the growing number of properties around the country with dedicated charging stations, supporting a more sustainable transportation future.

How many charging ports does VA's EVSE station have?

Each EVSE station is equipped with four charging ports that will support VA's growing fleet of ZEVs. "We're thrilled to be partnering more closely with VA to build a more sustainable future for its fleet and its facilities across the country," said GSA Administrator Robin Carnahan.

How many EV charging stations are in Richmond Virginia?

Richmond, Virginia has 498 public charging stations, 90 of which are free. There are 170 DC Fast Chargers in the city, 117 of which are Tesla Superchargers. Register for PlugShare and personalize the charging map with your preferences. Filter by plug, power level, charging network, and more.

How many solar-powered EVSE stations are there?

There are 140 solar-powered EV charging stations that maximize VA's flexibility on charging. Each station is equipped with four charging ports to support VA's growing fleet of ZEVs.

What type of vehicles will VA transition to?

VA is looking to install charging stations at its medical centers and other locations in preparation for transitioning its fleet to ZEVs (Zero Emission Vehicles). These sites contribute to the growing number of properties around the country with dedicated charging stations, which will support a more sustainable transportation future.

What is a GSA charging station?

GSA is the mandatory source for executive agencies purchasing non-tactical vehicles in the United States, excluding postal vehicles. As part of their efforts, GSA is installing solar-powered EV charging stations nationwide.
