The best choice for outdoor activities, emergencies, and power failures. Power up quickly with VEVOR! You can enjoy your life with VEVOR's worry-free portable power station.

What kind of battery does vevor have?

VEVOR portable power station features a high-quality class-A lithium battery with 296Wh capacity. Three charging modes and 9 output ports can get any job done. The best choice for outdoor activities, emergencies, and power failures. Power up quickly with VEVOR! Q: Which electronic appliances can I use with the unit?

What kind of battery does a portable power station use?

Unbeatable Lithium Battery: Our portable power station is designed with a high-quality class-A lithium-ion battery, with a capacity of 296Wh (20Ah/14.8V). The efficiency is still $\geq 80\%$ after 1000 cycles, and the single-cell capacity is 2900mAh. With an advanced BMS system, pure sine wave output provides a clean and stable power supply.

How safe is a solar generator?

Security You can Trust: The solar generator is equipped with 6 protections: over-current / over-load / low-voltage / over-voltage / short circuit / over-temperature protection. With 7 types of certification: ETL / FCC / CE / PSE / IC / UKCA certification. The power station can also supply power to the equipment while charging.
