What is WakaWaka Power+?

The WakaWaka Power+ is a powerful, compact solar power bank and flashlight for every outdoor situation. Going to a festival, camping, or picnicking? Have the power you need to share your stories with your friends, use your action cam, play music, or just light up the night sky. All with free energy from the sun.

How do I charge my WakaWaka solar panel?

Place your WakaWaka Solar Panel facing the sun and simultaneously charge your devices thanks to its 10 Watt. Simply fold the Solar Panel to a compact, convenient size. Both the Power 5 and the Solar Panel are light and easy to carry. Go solar and help take care of our planet.

How does the Waka Waka Power device charge?

The Waka Waka Power device charges by putting it in the sunlight. A tiny flashing indicator light on top shows the charging status - a series of single flashes indicate a slow charge, two flashes indicate a normal charge, and three mean that it's charging fast.

How long does it take to charge a Waka Waka Power?

It takes four hours to charge a Waka Waka Power from a computer's USB port. Once it's charged, you can then charge a phone or other device via the Waka Waka's USB port.
