

Walmart electric car charging stations gaithersburg

What type of charging is used at Walmart's EV charging stations?

The Walmart locations that do offer EV charging stations do so at 150kW up to 350kW. Charging done at these speeds is done with Direct Current (DC) and not Alternating Current (AC), so it can bypass the onboard converter and charger in your EV and charge the battery directly.

How much does it cost to charge an EV at Walmart?

It is not free to charge an EV at Walmart's charging stations. The Electrify America charging stations located at select Walmart locations charge by the minute or by the kilowatt-hour (kWh), depending on your state. Discounted prices are available to Electrify America Pass+Members.

How long does it take to charge an electric car at Walmart?

Generally, you can expect to charge your electric vehicle up to 80% in 15-30 minutes from a Walmart charging station. The charging speeds at select Walmart locations are 150kW and 350kW and are provided by Electrify America. The cost to charge is by the minute or by the kilowatt-hour, depending on your state.

What are the charging speeds at select Walmart locations?

The charging speeds at select Walmart locations are 150kW and 350kW and are provided by Electrify America. Generally, you can expect to charge your electric vehicle up to 80% in 15-30 minutes from a Walmart charging station.

Does Walmart have Electrify America charging stations?

Walmart does not have Electrify America charging stations. However, some select Walmart locations do offer charging stations with different providers. The Electrify America charging stations, when available, charge by the minute or by the kilowatt-hour (kWh) depending on the state.

Does Walmart offer charging stations?

Walmart has been expanding its charging stations at a rapid rate, especially along major interstates. If you're newer to the concept of charging as you shop, you're likely wondering just how long it will take to fill your electric battery back up.
