Does a home charging station use a lot of energy?

And if you own a home charging station, it's connected to the grid. It's America's power supply divvied out among your community, with 40% of that power generated by natural gas and 19% by coal. So, while the electric car has zero emissions, the energy it gets isn't. However, that doesn't mean charging stations don't use other clean fuels.
