

# Who pays for the electric car charging stations

Do you have to pay to charge an electric car?

You have to pay to charge your electric car at most charging stations. Owners typically charge electric vehicles at home, where energy costs less than "filling up" at commercial charging stations. Free charging stations are available at some shopping centers, providing slower Level 2 chargers to customers.

Do you have to pay to charge an EV?

But remember that you don't always have to pay to charge an EV. Companies such as PlugShare provide maps of free charging stations all over the U.S., and some workplaces and businesses offer free EV charging stations. However, studies have shown that most EV owners recharge their vehicles at home.

How much does EV charging cost?

Electric vehicle charging station costs vary depending on the location and supplier. You can typically expect to pay \$0.50/kWh to recharge your EV for fast DC charging. If you had a Nissan Leaf, it would cost \$20 to fully charge the car's 40kWh battery at a rate of \$0.50/kWh. You can pay for EV charging in a number of ways.

Do utility companies pay for EV charging stations?

Many utility companies throughout the U.S. offer rebate programs for commercial customers that install EV charging stations on their properties. Some of these programs, such as AEP Ohio's, offer to cover up to 100% of the costs. Your utility provider is the first place to check when you're weighing adding an EV charging station to your property.

How do I charge my electric car?

If you have an at-home setup, you'll pay to charge your electric car through your monthly electric bill. If you're paying at a public charging station, you can use that network's app or pay as you go by simply swiping your credit or debit card and paying the specified rate.

Are EV charging stations free?

Free EV chargers tend to be the slower AC chargers. You are most likely to find free chargers in public car parks where the only cost will be the standard fee to park your car. Some free EV parking stations in the ACT have time limits of up to three hours, so always check before leaving your EV charging.
