

What is a Wyze solar panel?

Wyze Solar Panel lets you extend the length of time you can keep your Wyze Cam Outdoor and Wyze Battery Cam Pro recording without having to bring them back inside to recharge. Works with Wyze Cam Outdoor and Wyze Battery Cam Pro*. IP65 weather resistance and dustproof.

Which Wyze cameras is the solar panel compatible with?

The solar panel works with Wyze Cam Outdoor v1/v2 and Wyze Battery Cam Pro. Attach a solar panel to your Wyze Battery Cam Pro to extend the battery life. Designed to be weather resistant and mountable anywhere.

How does a Wyze Battery Cam Solar Panel work?

The Wyze Battery Cam Solar Panel works by converting sunlight into electrical energy to charge Wyze Cam Outdoor or Wyze Battery Cam Pro. To maximize efficiency, mount the solar panel where it can receive the most sunlight during the day. However, tree sap, falling leaves, and large shadows can reduce its efficiency.

Does Wyze Cam have a battery?

The Wyze cam outdoor has a battery and supports a solar panel. Only drawbacks are you cannot use continuous recording and it needs a base station with wired power and a network connection nearby. Are you able to put the base in your house? How far away is the camera? I would prefer the solution be with Wyze Cam V3 (and going forward).

How does a solar panel charge Wyze Cam Outdoor?

The solar panel converts sunlight into electrical energy to charge Wyze Cam Outdoor. What is the max power output of the solar panel? The maximum power output is 2.5 watts. What's the best location for the solar panel? Mount the solar panel where you get the most sunlight during the day.

Does Wyze solar panel work in cloudy or rainy weather?

The Wyze Solar Panel, designed for Wyze Cam Outdoor and Wyze Battery Cam Pro, is unlikely to perform well in cloudy or rainy weather. Its effectiveness depends on the intensity of sunlight.
