

How much would a X3 Crystal cost?

Were worth \$1600 a piece or so. (Which was high for X3, would be middle of the road for X4) Would make it less "free money" if they were implemented. Until of course you make a crystal factory! Maybe make them cost a solid \$2500+ with 15 years inflation. I must say the production chain was definitely more thought out in X3.

How much does a production station run off of 4 solar panels?

Currently I've got one station with 50+ production modules running off of 4 Solar Panels. Literally \$200M+ of production stations running off of what? \$12mil in solar panels. Seems a tad unbalanced.

Are solar plants a 'big first step' in building factories?

The term kinda grew on you as you played the game. But seriously do something for the Solar Plants. They were a 'big first step' in building factories. Now they're literally nothing... Is there a real E-Cell market in X4?

with no input requirement except building materials e cell locations wouldn't matter much at all unless maybe at below 40%, when spammign them might be annoying. Joined: Tue, 4. Dec 18, 23:56 by Shehriazad ; Fri, 11. Jan 19, 11:00 RodentofDoom wrote: ? Thu, 10. Jan 19, 22:56 There is no real e-cell market in x4

Boron Solar Power Plant XL / Factory characteristics / X3 Terran Conflict (X3TC) X3TC X3 Terran conflict / X3 Albion Prelude. X3 Terran Conflict. Knowledge base; Screenshots; Space ship ...

Since solar power plants require crystals, which an area that doesn't even have the most basic of commodities certainly won't have, there's no way to get the economy of these areas going.

I remember in x3 you really went and scoured the sectors to find that lucrative 200-400% sun area. And actually had to do a real trade off of "should i buy this M solar plant I can ...

Experience the extraordinary power of the X3 MEGA G2 solar inverter, delivering up to 98.4% efficiency and outstanding energy performance with its wide MPPT voltage range, which enhances power yield. Rest assured ...

X3: Terran Conflict / Albion Prelude Downloads. ... Crystal Free SPP : This small script will remove the need for crystals on Solar Power Plant. Of course, you'll need to pay a lot of ...

The SolaX X3 MIC G2 inverter from SolaX Power is available in multiple models with power ratings of 3kW, 4kW, 5kW, 6kW, 8kW, 10kW, 12kW, and 15kW. ... The X3-MIC G2 is designed for economic performance and ...

Higher Sun ratings do not make a Solar Power Plant more efficient in terms of Crystals used or Energy Cells produced, only that more Energy Cells are created and more ...
