SOLAR PRO. Xcel energy solar power

What is Xcel Energy's new solar project?

The project is a key element of Xcel Energy's clean energy transition and will help the company triple the amount of solar on its Upper Midwest system by 2028. The unanimous vote paves the way for 710 MWof solar generation near the existing Sherco coal plant in Becker, Minnesota, by adding a 250-MW array to the 460 MW currently under construction.

Is Xcel Energy delivering carbon-free electricity?

MINNEAPOLIS (November 19,2024) -- Xcel Energy is now delivering carbon-free electricityfrom one of the country's largest solar projects to customers across the Upper Midwest,representing a significant milestone in the company's clean energy transition and the first of several major investments at the Sherco site in central Minnesota.

What is Xcel Energy's Sherco solar project?

The Minnesota Public Utilities Commission approved Xcel Energy's expansion of the Sherco Solar project, which will soon become one of the biggest solar projects in the country. The project is a key element of Xcel Energy's clean energy transition and will help the company triple the amount of solar on its Upper Midwest system by 2028.

Will Sherco Solar Power Xcel Energy's Upper Midwest?

Once complete, Sherco Solar's combined capacity of 710 megawatts will provide enough clean energy to power 150,000 homes across the Upper Midwest and replace the capacity of the nearby Sherco plant's first coal unit that retired last year. Sherco Solar will provide the lowest-cost solar on Xcel Energy's Upper Midwest system.

Why is Xcel Energy a good investment?

Solar energy does not have any fuel costs and contributes to a diversified energy mix, which helps protect against rising fuel prices. Xcel Energy expects to qualify for federal tax credits from the Inflation Reduction Act on Sherco Solar's energy production, helping customers save money.

How does Xcel Energy handle solar applications?

Xcel Energy manages solar applications through its Distributed Energy Resource (DER) Application Portal,typically handled by the solar installer. To ensure your personal data is protected,your installer will need to register and create a unique username and password to login.

Xcel Energy plans to build a 10-megawatt battery array the size of a football field near its Comanche coal-fired power complex in Pueblo to store days" worth of clean solar and ...

AMARILLO, Texas (July 26, 2023) - Xcel Energy will invest approximately \$770 million in existing Texas-New Mexico power generating facilities by extending the life of two older natural gas ...
